

Joining Instructions – Education Days 2024/25

Hello from the education team.

You have received these joining instructions from the ROC, alongside a date to attend a training day.

As with previous years, the days are designed to allow statutory content to be taught alongside departmental requests that aim to address thematic events. Furthermore, the content has been compiled in recognition of the different grades of operational personnel, with more time being devoted towards practical / theoretical elements relative to an individual's scope of practice.

Spread across several days, the content created for 2024/25 include.

- Moving and Handling
- Restrictive interventions for conflict resolution
- Adult life support
- Paediatric life support
- Newborn life support inc. care of the newborn
- Safeguarding
- Trauma Care
- ECGs and ACS
- Infection prevention and control
- Mental Capacity
- Medications management / legislation
- Alternate care pathways and validation

Due to the presence of simulated practice included on each day dress code will be **Uniform**. Given that education should be an egalitarian environment the non-wearing of rank, whilst an individual choice, is encouraged.

| Please see the table for a summary of information: | | |
|--|---------------------------|--|
| Start time: | Parking: | Refreshments: |
| All Venues: 08:30Hrs | Available at most venues. | Tea and coffee refreshments provided at all locations. Lunch is NOT provided. |

Do you have an additional learning need?

The L&D team want to support you, please visit our [webpage on SWAST CPD](#) for further information, or scan the QR code below.

Venues:

The location of your education day may be held at your local training venue or at an external venue. Please check your emails from ROC as they will provide you with the information. They may have been sent some time back. If you are uncertain, please check with ROC or email: LDAdmin@swast.nhs.uk
