

University of Cumbria: Guidelines for General Module Funding Applications 2024/25

CONDITIONS:

Funding offer is equivalent of up to 1 x Level 6 or Level 7, 20 (or 40 if Dissertation) Credit Module within the 2024/25 academic year (available runs only).

- If you find a short course at a lower level, this is also acceptable.
- It is not possible to secure funding for a full degree programme. **There is a separate process for the BSc Top Up Programme.*
- Only one place per person.
- It is not possible to choose any modules relating to independent prescribing. *Please contact us separately if you wish to complete one of these modules and you already have prescribing status & use this as part of your SWASFT role. **
- It is not possible to choose any the Clinical Supervision module. *If you are interested in Clinical Supervision, the SWASFT preferred module is the UoP partnership module. You can [sign up here](#). **
- It is not possible to choose a module which stipulates that you require placement or a SWASFT supervisor or mentor. *
- It is the responsibility of the applicant to check that they meet the entry requirements of selected modules prior to completing an application for funding. *
- All funding needs to be approved by SWAST CPD before any applications are made with UoC: any early attempts to enrol with UoC will unfortunately be rejected.

Capacity on all modules is managed by UoC, therefore you are only guaranteed a place a point of successful enrolment with UoC. Applicants who are successful with their funding application are therefore advised to enrol on their chosen module promptly - therefore we suggest having a fairly firm idea of which modules you may like to do at this stage.

SUGGESTED MODULES:

Popular Modules:	Module Code	Further info:
Acute and Critical Care: Foundations for Practice	HCPD7066	Link to UoC Module Page
Acute Care: Initial Management of the Acutely Ill Adult	HCPD7068	Link to UoC Module Page
Advanced Pathophysiology and Diseases in Practice	HCPD7070	Link to UoC Module Page
Care of Minor Illness and Minor Injuries	HCPD7051	Link to UoC Module Page
Clinical Complexity in Emergency Care	HCPD7030	Link to UoC Module Page
Disaster Response	HCPD7035	Link to UoC Module Page
Dissertation		Suitable for those already on a pathway looking to complete. 40 credits.
Emergency Care of Women and Children	HCPD7032	Link to UoC Module Page
Emergency Clinical Decision Making and Problem Solving	HCPD7033	Link to UoC Module Page
Leadership Through Transformational Learning	HCPD7058	Link to UoC Module Page
Management of Major Illness and Major Trauma	HCPD7052	Link to UoC Module Page
Research Methods	HCPD7019	Link to UoC Module Page
